## Securope on cold deck

---

**FALLPROTEC**

December 2019

---

### Description

Fallprotec has designed fixing assemblies to allow the fixing of SecuRope lifeline on a fragile structure like cold deck metal sheet roof. The unique design of the fixing bracket distributes the load evenly.

Compliant with EN 795:2012  
C EN/TS 16415:2013  
MADE IN EU

### Advantages

- For 4 users
- Undeformable
- Absorbs dilatation and contraction of roof sheets
- Supplied with self-drilling screws

### Technical specifications

Delivered with an installer and user manual.

Material: Steel, stainless steel and waterproofing tape
