

## NAV1 manual trolley

Chariot à translation par courroie NAV1  
Carro de traslación manual NAV1  
Manuell gesteuerte NAV1-Laufkatze

Code N° MHS054

## Description

The NAV1 manual trolley with drive belt is used with a one or two person platform or a RopeClimber hoist.

The drive belt is engineered to optimize the force transfer to the drive wheel. The user can therefore move the trolley efficiently.

Low maintenance system, very suitable for short tracks up to 50m length.
